### *AGLA1-5 SILVER LINING*

#### **AGLA08 Befriended by Zair Castelle**

You rescued the half-elf cartographer, Zair Castelle, and earned his trust. He may be interested in your services at some future point. This marks the beginning of the *Invisible Road* Major Quest. The quest will be continued in future Aglarond regional adventures.

#### **AGLA09 Suspicious Stones**

You uncovered a secret mining operation unearthing large, mysterious stone blocks from a played out silver mine in the Tannath Mountains. A mysterious wizard called the Saffron Devil seems to be behind this, but to what purpose? This marks the beginning of the *Circle of Stones* Major Quest. The quest will be continued in future Aglarond regional adventures.

#### **AGLA10 Urk!**

You met an unusual goblin named Urk, a member of the Cloudripper tribe dwelling in the Tannath Mountains in Aglarond. In the following space or on the back of this certificate, briefly note any important details of your interactions with Urk during the adventure. (For example: you befriended Urk, you tried to kill Urk, you did kill Urk, you were mean to Urk, you ignored Urk, you made Urk an honorary member of your Adventuring Company, and so forth.)

It is entirely possible that Urk, or some of his fellow Cloudrippers, will play a role in future Aglarond regional adventures, and this information will help your DM make appropriate decisions when the time comes.
